Mansfield, TX 76063

Subject: Revised Authorized Registered Formulation for Standard 61

Enclosed is a copy of your revised Authorized Registered Formulation. This complete formulation must be at the identified facility location for review by an NSF Auditor, conducting the annual/follow-up audits. Each product is identified by Document Control Code (DCC number) located in the upper left hand corner of the each page. All previous and now outdated Authorized Registered Formulations for your products are replaced with the enclosed revisions.

The NSF audit of your facility, including materials/process verification and product sampling, will be guided by this formulation. Failure to maintain this information at the facility may require special follow-up audits or result in removal of products from Listing.

As a reminder, you are not permitted to make any formulation changes to NSF Certified products without prior written approval from NSF. Only those specific material/ingredients and use levels indicated in the Authorized Registered Formulation are authorized for use in the Certified Product. To obtain authorization for an alternate supplier (or other modification) please contact your Account Manager at 1-800-NSF-MARK to request the appropriate forms. For customers outside the USA, please use 1-734-769-8010 and ask for your Account Manager.

If you have any questions about the Authorized Registered Formulation, please contact your Account Manager indicated below.

Enclosure: Authorized Registered Formulation

Account Manager: Jenae Yono, 1-734-214-6207, JYONO@NSF.ORG

Facility: 70132

DCC: PM03510

NSF/ANSI Standard 61 - Drinking Water System Components - Health Effects

Authorized Registered Formulation

Reason For Revision: W0618490 - List new facility in Mexico and certify PM08160. NSF61

Customer Name: Master Meter, Inc.

Facility Location: Mansfield, TX

Customer Number: 70130

Facility At: Mansfield, TX

Facility Number: 70132

Trade Name(s)

Flexible Axis Meter / FAM

Function(s)

Water Meters

Size

5/8 x 3/4 in

SM Flexible Axis Meter / FAM

Water Meters

3/4 x 3/4 in

Category: MECH, SECTION 8 - MECHANICAL DEVICES

Material Type: Multiple Water Contact Materials (MLTPL)

Temperature: Cold (73 °F / 23 °C)

Sample Notes

Please collect (15) 3/4" X 3/4" Flexible Axis Meters with metal flow tube assemblies and a Fam Body Assembly that contains a CY-N66020-A measuring chamber o-ring.

Miscellaneous Notes

Low lead testing of the Flexible Axis Meters in PM03510 covers the low lead testing for the 303 stainless steel in the Hot Water Multijet Water Meters in PM11211.

The FAM Body Assembly, PM20120 and PM20121, can be sold on its own without the optional Tube Assembly.
